Glemsy gives aspiring female models the opportunity to enter the world of fashion.

The requisites are: at least 1.75m in height; size: 40-42 (EUR); highly photogenic face and, above all, a high level of determination and motivation to take part in numerous daily casting sessions.

Over the last few years, the market has become saturated in Italy following the arrival of many models from all over the world and this has caused over-population issues with a subsequent reduction in work and salary opportunities.

As a result, we cannot indicate a minimum monthly salary and Glemsy reserves the right to assess income on a case-by-case basis.

Glemsy guarantees accommodation and drafting initial work contracts.
